Notes:

- What went well?
 - Having people "sign up" for tasks (PowerPoint slides, coding/design tasks)
 - Letting folks present their work at the TA meeting
 - Coordinating & tracking work via Trello and Discord, checking in at stand-up
- What could be better?
 - Communication - the more, the merrier!
 - Pre-add more tasks + backup tasks (to the product backlog)
- Suggestions for improvement?
 - Be ambitious - outline and prep more tasks (everyone works at a different pace)
