

Spotify Open Recommendation Engine

Sprint Review | Team Spotify Squad

Sprint 4 | 17 November 2021 ~ 30 November 2021

Actions to stop doing:

- Leaving PR's open indefinitely
 - Proactively request reviews!
 - We're an agile team working with limited time - set a time limit!
 - If you've notified the team of your work, made build/unit tests pass, and no one's approved or rejected any changes - go ahead and merge

Actions to start doing:

- Use Trello more aggressively
 - In a large, distributed team, it's important to keep folks updated on what you're working on!
 - Under-communication leads to lack of clarity and work being duplicated or dropped

Actions to keep doing:

- Keep up the good vibes & communication :~)
- Keep sharing feedback & resources
- Keep being respectful of each other (and mindful of people's time/schedules)

Work completed:

- [BE] Unit testing for search
- [BE] Automated testing
- [FE] List view of songs in generated playlist
- [FE] Song info layout
- [FE] Search for a song

Work not completed:

- n/a

Work Completion rate:

- Tasks completed: 5
- Days in Sprint 4: 14
- Average tasks completed/day: 0.35
